

POCKET SCALE / DIAL CALIPER

DIGITAL POCKET SCALE

09723

Platform Size : 60x60mm(LxW)
Scale Size : 145x95x25mm
(LxWxH)

SCALE WITH WEIGHT

09725

Platform Size : 75x60mm(LxW)
Scale Size : 140x90x30mm
(LxWxH)

POCKET SCALE WITH LED LIGHT

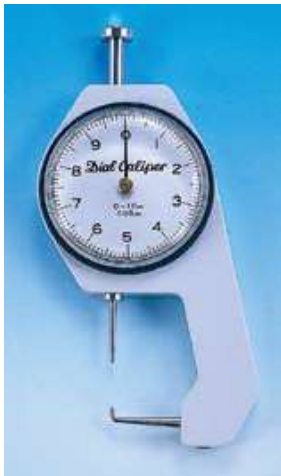

NEW

09724

Platform Size : 70x55mm(LxW)
Scale Size : 105x70x25mm (LxWxH)

Features:

1. Max Weight Capacity: 100gram
2. Division: 0.01gram/0.01Dwt/0.0005 Ozt
3. 5 unit modes GM, OZ,DWT,OZT,CT
4. 2AAA BATTERIES (INCLUDED)

DIAL CALIPER

Features:

The extremely small measuring pressure permits the exact determination of metal thickness on crown models. Easy adjusting by adapting the measuring contact and by turning the bezel. High degree of read-off accuracy (0.05mm) The scale marking of the critical range ensures modeling efficiency and material saving.

Technical Data:

Measuring range : 0-10mm
Scale interval : 0.05mm

Item No. 04050

DIGITAL CALIPER

Features:

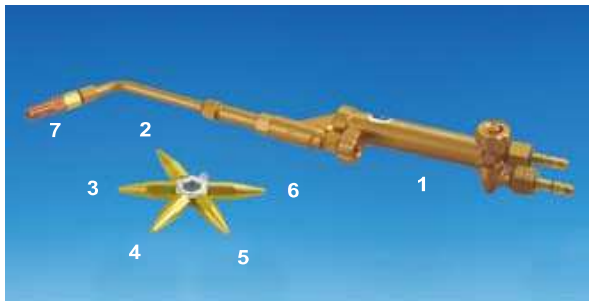

Digital quick-caliper for the exact and fast measuring of the wall thickness of crown. The caliper is easy to use and display the measuring result immediately.

Item No. 04051

Technical Data:

Measuring range: 0 ~ 11.9 mm
Accuracy of reading : 0.01 mm
Units in mm and inch
Battery 1.5V SR44 tolerance +/- 0.02mm

CASTING TORCH (Japan type)

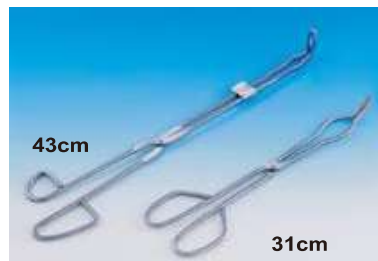

Features:

Uses oxygen with propane, natural or MAPP gas. All components are standard apparatus and are manufactured under stringent quality controls.

Item No.02620 (Japan type)
